

CCB7
7th Conference on
Cereal Biotechnology and Breeding
7-9 November 2023

18th EWAC
The European Cereals Genetics
Co-operative Conference
6-7 November 2023

Wernigerode, Germany

Jointly organised
with the Cereals Section
of EUCARPIA

Dear Colleagues,

Registration and abstract submission is open for the 7th Conference on Cereal Biotechnology and Breeding / CBB7, and the 18th European Cereals Genetics Co-operative Conference / 18th EWAC to be held 6-9 November 2023 in Wernigerode, Germany.

Come and share your new results!

Oral submission deadline is 31 July 2023
Poster submission: 5 Sept 2023
Abstract notification until 12 September 2023

Register now on early-bird rates

CBB7 Academic: 570 EUR
CBB7 Industrial: 650 EUR
CBB7 Student: 430 EUR

EWAC Academic / Industrial: 210 EUR
EWAC Student: 150 EUR

CBB7+EWAC Academic: 735 EUR
CBB7+EWAC Industrial: 810 EUR
CBB7+EWAC Student: 540 EUR

EUCARPIA members can register with 40 EUR discount!

Call for Abstracts

Authors are invited to submit their oral and poster contributions from the following fields:

Genetic Resources for Crop Improvement
Environmental Adaptation
Biotic Stress Response
Plant-Microbe Interactions
Yield and Quality Improvement

Bioinformatics, Genomics and Genome Editing
Phenotyping Technologies (Generally)
Phenotyping Technologies (Wheat Initiative)
Phenotyping Technologies (CePPG)
EWAC - Cereals Genetics (for EWAC participants)

Session Phenotyping Technologies will be jointly organised with the Wheat Initiative expert working group "Wheat phenotyping to support wheat improvement" and the International Plant Phenotyping Network working group "Controlled Environment Plant Phenotyping (CePPG)".a

Confirmed Plenary Speakers

An impressive line-up of plenary speakers will present on CBB7 covering the most recent issues of cereal biotechnology and breeding:

Thomas Altmann
Head of the Department
of Molecular Genetics
IPK Gatersleben
Germany

Hans Braun
Director of WHEAT CRP
and CIMMYT Global Wheat
Program
Mexico

Beat Keller
Department of Plant and
Microbial Biology
University of Zurich
Switzerland

Mesut Keser
International Center for
Agricultural Research in the
Dry Areas / ICARDA
Türkiye

Yvan Moënné-Loccoz
Claude Bernard University
Lyon 1
France

Martin Mascher
Head of Domestication
Genomics group at IPK
Gatersleben
Germany

Claire Oget-Ebrad
French National Institute
for Agriculture, Food, and
Environment / INRAE
France

Co-Organizer Partner

EUCARPIA aims to promote scientific and technical co-operation in the field of plant breeding in order to foster its further development. To achieve this purpose, the Association arranges and sponsors meetings of members, to discuss general or specific problems.

For further details about the conference please visit [our website](#),
it is continuously updated with relevant information!

We are looking forward to meeting you in Wernigerode, Germany!
On behalf of the Organizing Committee,

Andreas BÖRNER

Conference Chair
Head Cereals Section of EUCARPIA
Germany
